

GROW WILD YOUTH PROJECTS

UK wildflowers and fungi are underappreciated and their habitats under threat.

GROW WILD

helps change this. We award £500 funding to young people aged 14-25 to lead creative projects – and young people select which projects are funded.

We're part of:

KEW'S MISSION IS:

To build an understanding of the world's plants and fungi.

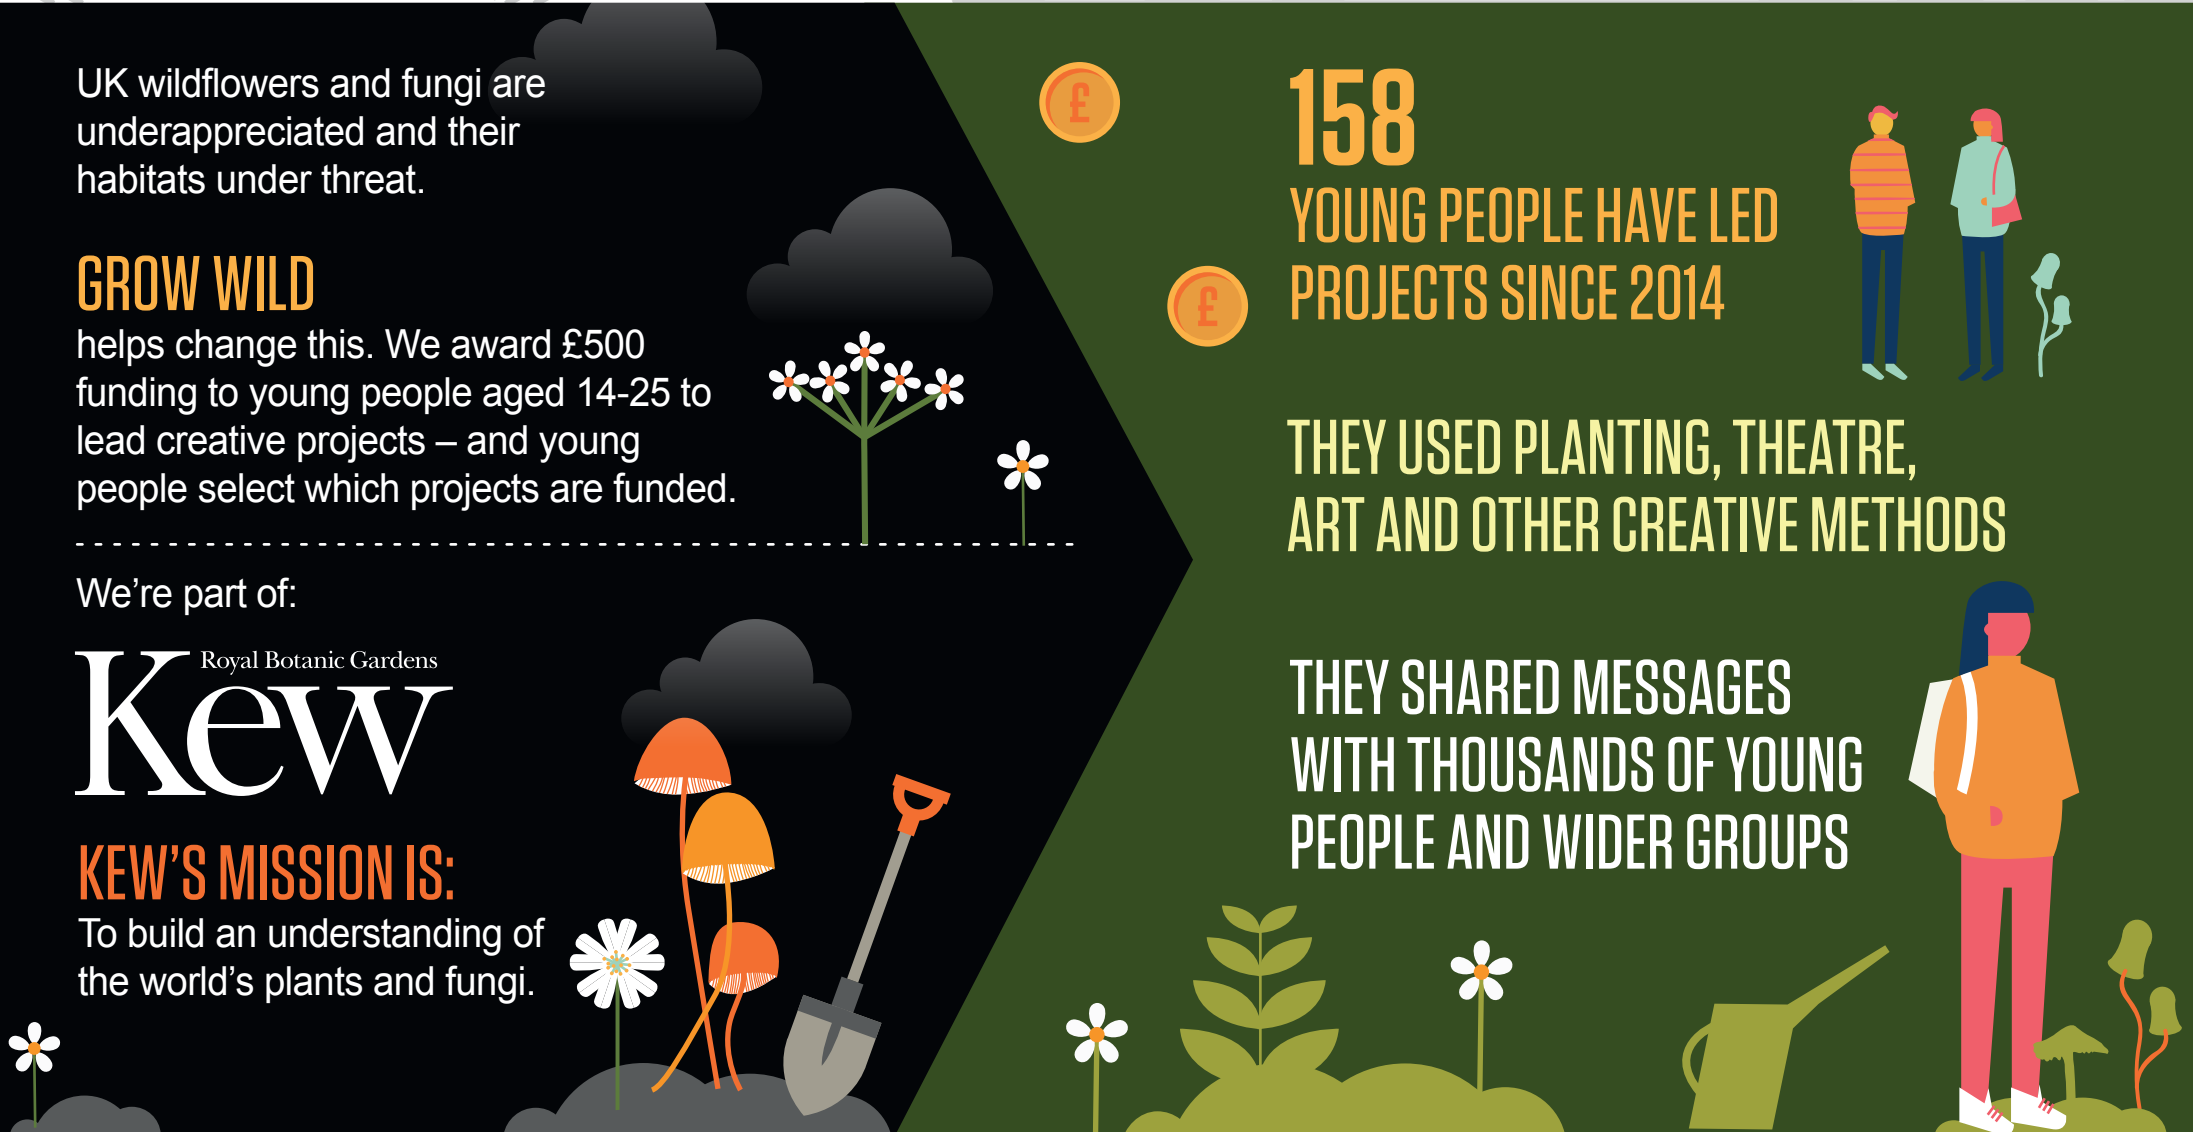

158

YOUNG PEOPLE HAVE LED PROJECTS SINCE 2014

THEY USED PLANTING, THEATRE, ART AND OTHER CREATIVE METHODS

THEY SHARED MESSAGES WITH THOUSANDS OF YOUNG PEOPLE AND WIDER GROUPS

GROW WILD YOUTH PROJECTS

YOUNG PEOPLE:

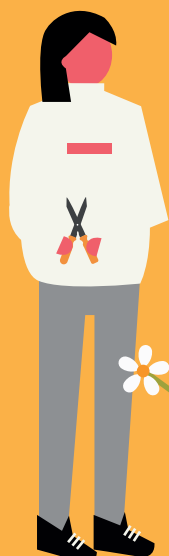

- * Gained greater awareness and knowledge of nature
- * Increased self-confidence from developing and finishing projects

“ *It’s the little things that you notice, so like even from the airport to here, I saw hogweed and cow parsley and stuff on the way.* ”

“ *After we did the project... I’ve seen many of my friends actually change their behaviours and like become more helpful around the school and outside of the school.* ”

* Developed new relationships and connections with people

* Increased their wellbeing when growing plants
